SHELTER/NFI CLUSTER

91% of the S/NFI Cluster HRP target

927,571 individuals reached in 2017

23 partners

133 NFI Distributions

in **nine** states

In 2017, Shelter-NFI Cluster (IOM as Cluster Lead Agency) provided assistance to affected populations in need of S/NFI assistance across South Sudan through shelter construction, rehabilitation, and upgrading; NFI distribution; and the coordinated mobile and static responses of 23 S/NFI humanitarian partners. Additionally, S/NFI Cluster mobile teams participated in the humanitarian response to acute food insecurity in April 2017, following the declaration of famine in February 2017. The S/NFI Cluster continuously undertakes several initiatives to strategize different aspects of the sector; such as House, Land and Property (HLP) focused on shelter; accountability to affected population; PoC sites approaches; and cash-based interventions amongst others.

SHELTER/NFI COMMON PIPELINE

As cluster lead agency, IOM manages the common pipeline for the Shelter and NFI Cluster by procuring, transporting and storing stocks throughout South Sudan. Supplies are accessible to Cluster partners ensuring sectorial coverage.

83% of approved pipeline requests delivered within 10 days

1,843 metric tonnes of pre-positioned stock in the country

34 deliveries in five prepositioning hubs and in the Equatorias, Mundri, Torit, and Yambio

IOM SHELTER/NFI RESPONSE

Mobile Team

IOM Shelter/NFI response team provided shelter and NFI assistance to affected populations across South Sudan with mobile and static response. To further quality programming during the year 2017, IOM S/NFI team increased its emphasis on resilience by building communication with communities (CWC), improving accountability to affected populations (AAP), and mainstreaming protection and gender in its interventions.

NFI

Construction of Fuel-Efficient Stoves (FES) in Bentiu

To mitigate the risk of GBV and fires, while also improving family health and safety, IOM S/NFI team provided fuel-efficient cooking solutions to 90 percent of households within Bentiu PoC site through a skills-transfer programme aimed at teaching individuals how to construct and maintain their own fuel-efficient stoves in combination with a cash-for-work component.

101,250 individuals reached

1,280 individuals trained to construct Fuel-efficient stoves

Shelter

Shelter Rehabilitation in Wau PoCAA site

IOM S/NFI team, in coordination with CCCM and WaSH, implemented a comprehensive rehabilitation of Wau PoC site with the objective of enhancing the site with more equitable access to services, balanced dispersion of IDPs, and reduce congestion of makeshift shelters. Shelter designs were adapted considering specific situations and space availability. IOM S/NFI team has given special attention to ensure structural quality and to prolong life span of shelters.

Shelter Upgrade in Wau PoCAA site

IOM upgraded communal shelters in Zone A and C in Wau PoC through a cash-based modality and as part of a large-scale rehabilitation of the site. Through a community-driven cash-based modality and using locally available materials, these upgrades consisted of installing grass roofing and bamboo-thatched walls.

Shelter and NFI distribution in Lainya, Central Equatoria State, October 2017. IOM/2017

36 mobile interventions across the country

266,945 individuals provided S/NFI assistance
