## WEEKLY SCREENING

TOTAL INDIVIDUALS SCREENED FOR EVD SINCE SEPTEMBER 2018

CASES OF NON-EVD FEVER (VALUES INDICATED FOR WEEKS WITH 20+ CASES)

## HEALTH UPDATES

IOM continues with EVD prevention and preparedness activities in the 5 PoEs in Morobo, Yei, Nimule, Juba and Wau. In week twenty-second, 2,412 inbound travelers were screened bringing the cumulative number of travelers screened to 2,289,518. There's reduction in the number to travelers screened this week compared to that of last week. There was no traveler who underwent secondary screening this reporting week.

## DTM UPDATES

Eight out of ten FMPs submitted data on time for the weekly update. Based on data submitted by Monday 1 June, 1,078 individuals were surveyed in groups on arrival to South Sudan during the reporting period. Numbers of incoming travelers remain low due to mobility restrictions related to COVID-19. The main regions of departure were Ituri (42.9% of respondents) and Haut-Uele (20.8%) in DRC, while the main reported counties of destination were Morobo (42.6%) and Juba (18.6%). Most respondents reported South Sudanese nationality (71.4%), followed by Ugandan (17.0%).

## SECURITY CHALLENGES & COORDINATION NOTES

- There have been renewed clashes between the armed groups in locations around Yei town and in Lainya limiting access to the PoE in Kaya and to health facilities in Morobo and Kajo keji. IOM team continue to provide remote support from the Yei office
- IOM continued to actively participate in the various EVD/COVID-19 meetings, including the National Task force (NTF), COVID-19 National Steering committee meetings, Technical Working Groups (TWGs), and State Task Forces (STFs)
- IOM also participated in other weekly state and county coordination meetings with OCHA, partners, and other stakeholders
